## PROFESSIONAL SUMMARY

Software Developer at Flutterly Ltd with expertise in app development, including React JS, React Native, Flutter, SwiftUI, and iOS and Android development. Master's in Nano Science and Technology and a Bachelor's in Electronics and Communication Engineering from Anna University. Strong blend of analytical and practical development skills. Previous roles as a Data Analyst at MeriSKILL and Senior Support Worker at CareAssistUK have honed abilities in data-driven decision-making and user-centered support. Certifications in Version Control, iOS Mobile Application Development, and Swift from Meta enhance capability to deliver robust, scalable solutions benefiting both the team and clients.

## WORK HISTORY

### Flutterly Ltd - Software Developer

Reading, England, United Kingdom  
11/2023 - Current

- As a software developer, I focus on creating and maintaining web and mobile applications, ensuring they meet client needs and provide a smooth user experience
- Led the development of a mobile app that increased user engagement within the first three months of launch
- Designed and implemented a new web application feature that reduced page load times, resulting in a smoother user experience and higher retention rates
- Collaborated with a cross-functional team to deliver a mobile app update that increased in-app purchases, contributing to a rise in overall company revenue.

### MeriSKILL - Data Analyst

United Kingdom  
11/2023 - 02/2024

- As a Data Analyst, I analyzed data to provide insights and support decision-making, using various tools to identify trends and create reports
- Analyzed sales data to identify key trends, leading to an increase in quarterly revenue through targeted marketing strategies
- Developed and implemented a new reporting system that reduced data processing time, enhancing overall team productivity
- Created interactive dashboards that improved data accessibility, reducing decision-making time for senior management

## SKILLS

- Problem-Solving
- Programming
- Object-Oriented Programming
- Software Development
- Code debugging
- Web application development
- Testing and debugging
- Software Debugging
- Agile development methodologies
- Git proficiency
- API Integration
- Code Review
- SQL
- Front-end Frameworks
- Back-end frameworks
- User Experience Design
- Application Development
- Test-driven development
- Code Review and Refactoring
- Mobile Application Development
- Cross-platform Development
- Application Programming
- Innovative
- Technical Analysis
- Technical Support
- Hardware and software installation
- Continuous Integration and Deployment
- Technology Integration
- Code Versioning
- Customer-Oriented
- Product Development
- Technical consulting
- Javascript

- Automated routine data tasks using Python scripts, saving the team hours per week and allowing more time for strategic analysis.

### CareAssist UK - Senior Support Worker

High Wycombe, England, United Kingdom

06/2023 - 02/2024

- As a Senior Support Worker, I lead a team in delivering care, manage casework, and ensure high standards of service for individuals with diverse needs
- Led a team of 10 support workers, enhancing service delivery and increasing client satisfaction
- Developed and implemented care plans for over 50 clients, resulting in improved individual outcomes and fewer crisis incidents
- Coordinated with healthcare professionals to create integrated care solutions, reducing hospital readmissions.

### Flutter Developer

Reading, England, United Kingdom

09/2020 - 11/2023

- As a Flutter Developer, I build cross-platform mobile apps using Flutter, ensuring they perform well on both iOS and Android
- I work closely with teams to design and implement features that meet client needs
- Integrated custom animations and transitions in a mobile app, enhancing the user interface and contributing to improved user satisfaction scores
- Streamlined the app development process by implementing reusable Flutter widgets, reducing development time and improving project efficiency
- Launched a feature-rich mobile app that exceeded client expectations and contributed to increased revenue.

### Uniq health care - Senior Support Worker

Wokingham Without, England, United Kingdom

02/2021 - 06/2023

- As a Senior Support Worker, I lead a team in providing high-quality care, manage casework, and coordinate with healthcare professionals to support clients effectively
- Developed care plans for over 50 clients, leading to better individual outcomes and a reduction in crisis incidents
- Coordinated with healthcare professionals to create integrated care solutions, decreasing hospital readmissions
- Trained and mentored new staff, improving team competency and reducing onboarding time.

### Jesus Youth International - App Developer

Kochi, Kerala, India

- HTML
- Source and Version Control: Git, Github
- Agile
- JS Frameworks: React, Angular, Vue
- Databases: Oracle, MongoDB
- Software Deployment
- JSON mapping
- Android Software Development
- Software Applications
- Dart
- Flutter
- SwiftUI
- React Native
- Wordpress
- Webflow

---

## EDUCATION

03/2016

### Anna University

Chennai, India

#### Master of Technology - MTech:

Nano Science and Technology  
I completed my MTech in Nano Science and Technology, where I gained advanced knowledge and skills in nanotechnology. This education provided me with a strong foundation in the interdisciplinary aspects of nano science, which has significantly contributed to my analytical and technical abilities, particularly in app development and data analysis.

05/2010

### Anna University

#### Bachelor of Engineering - BE:

Electronics and Communication  
I earned my Bachelor's degree in Electronics and Communication Engineering, which gave me a comprehensive understanding of electronics, communication systems, and related technologies. This degree laid the groundwork for my career in software and app development, enhancing my technical proficiency in

10/2018 - 10/2019

- As an App Developer, I designed and build applications, ensuring they meet user needs and performance standards while collaborating with cross-functional teams
- Developed and launched a cross-platform app using Flutter and Firebase, achieving over 100,000 downloads within the first three months
- Implemented real-time data synchronization with Firebase, enhancing app performance and reducing data latency
- Designed and executed a seamless user interface for iOS and Android, increasing user engagement and app ratings.

### **Amazon - Data Associate**

*Chennai, Tamil Nadu, India*

09/2016 - 10/2018

- As a Data Associate, I managed and analyzed data sets, ensuring accuracy and consistency
- I generate report, identify trends, and support data-driven decision-making processes
- Managed and cleaned large data sets, improving data accuracy and reducing errors in reporting
- Generated comprehensive reports that identified key trends, leading to data-driven decisions that increased operational efficiency
- Developed and automated data entry processes, reducing manual input time and enhancing overall productivity.

### **Scientific Publishing Services Pvt Ltd - Production Administrator**

*Chennai, Tamil Nadu, India*

04/2014 - 11/2016

- As a Production Administrator, I coordinate production activities, manage schedules and inventory, and resolve issues to ensure smooth operations
- Coordinated production schedules for multiple lines, increasing on-time delivery rates and meeting production targets
- Managed inventory levels, reducing stock shortages and ensuring a steady supply of materials
- Streamlined production processes, leading to a reduction in downtime and improved overall efficiency.

designing and implementing complex systems.
